

Wish you could **collect** your
outstanding invoice balances?

What We Do

Accelerate cash flow

Reduce administrative work

Improve customer experience

The Problem for Merchants

Duplicate entry is time-consuming and leads to errors

They don't have a way to send invoices automatically

Plugins don't allow customers to pay online

Customers don't have an easy way to pay online

They cannot automatically reconcile their credit card batches into their account software

Only option is QuickBooks Payments

The Solution

Biller Genie connects *your services* with your merchants accounting software, giving them an easier way to collect, process, and automatically reconcile credit card payments in their accounting software.
